

## HOOVER DAM "VIP" TOUR FROM LAS VEGAS

(HDRC)

Located on the **Colorado River**, **Hoover Dam** is the highest structure of its kind in the world. It is an outstanding achievement, nearly 100 years old, noteworthy not only for its enormous dimensions, complex design and intricate construction, but also for its illustration of man's outstanding ability to overcome the desert's summer sun, the dangers of a treacherous river, and the extreme hazards of great heights on the canyon's sheer walls.

This tour includes the **Visitor Center** and **Historical Displays**, views from the interior base of the dam into the **Generator Room**, the fascinating Hoover Dam Movie, with ample time for breathtaking views from the Top of the Dam, Lake Mead, the world's largest man-made lake, the eastern edge of the chasm in Arizona where you have fabulous views of the dam including Lake Mead. In addition, there are wonderful photo ops of the new Hoover Dam Bridge. Before returning to Las Vegas we stop at a local park where herds of Big Horn Sheep often come down from the surrounding mountains to gather and graze on the sweet grass.

### Hoover Dam Tour

Take a look from the interior base of the dam into the generator room, and watch the fascinating Hoover Dam movie with ample time for breathtaking views from the top of the dam. A stop at the eastern edge of the chasm in Arizona provides fabulous views of the dam and **Lake Mead**, the world's largest man-made lake. In addition, there are fabulous photo ops of the new **Hoover Dam Bridge**.
